HITECH

Overview

HiTech is a hands-on program by HiSeedTech, specifically **designed for research teams** working on deep tech projects. Over 19 weeks of training, workshops, and mentoring, HiTech equips teams with essential **skills in knowledge commercialization**, empowering them to transform cutting-edge technologies and scientific discoveries into high-growth business opportunities.

In 2025, HiTech offers two tracks for research teams to choose from:

Market Pull: Address real-world challenges posed by HiSeedTech member companies, such as Casas Em Movimento (sponsored by Inventa), Costa Verde, EFAPEL, INDAQUA, Lameirinho, Sonae Arauco, and UTIS (a company of the Semapa portfolio).
[\[View challenge descriptions here\]](#)

Technology Push: Develop and commercialize your own deep tech project.

This **Toolkit** provides all the materials and support needed to effectively promote **HiTech 2025** within your institution. Here, you'll find resources to help you engage research teams, raise awareness, and encourage participation in this impactful program.

Empower your institution's innovators to take the next step toward commercialization with HiTech!

HITECH

Overview

HiTech 2025: Transform Your Deep Tech Research into Market-Ready Solutions

Are you part of a research team ready to transform your groundbreaking research into a market-ready solution? HiTech 2025 applications are now open! This immersive program is exclusively designed to equip researchers with the skills needed to commercialize deep tech projects.

In 2025, HiTech introduces two distinct tracks, allowing participants to choose the path that best suits their needs:

- **Market Pull Track:** Tackle real-world challenges posed by HiSeedTech member companies with your technology ([Explore them here](#)).
- **Technology Push Track:** Develop and bring your own deep tech project to market.

During the 19-week program, HiTech provides a variety of valuable resources, including online tutorials, webinars, mentorship from business experts, and pitching opportunities.

Who Can Apply?

HiTech 2025 is open to research teams from Portuguese universities, laboratories, and startups. Teams should consist of 2-5 members and be working on a deep tech project with a Technology Readiness Level (TRL) of 2 or higher.

Key Dates:

- Application Deadline: January 31, 2025
- Program Start Date: February 18, 2025
- Program End Date: June 26, 2025

To help you learn more about HiTech 2025, HiSeedTech will host information sessions where you can explore program details, ask questions, and gain insights into the application process. Visit the HiSeedTech website to find session dates and register.

Apply by January 31, 2025, at hiseedtech.com.

HiTech 2025 Applications Are Open!

Are you ready to turn your deep tech research into a market-ready solution? HiTech 2025 is a 19-week immersive program that equips research teams with the skills to commercialize deep tech projects.

This year, HiTech introduces two distinct tracks:

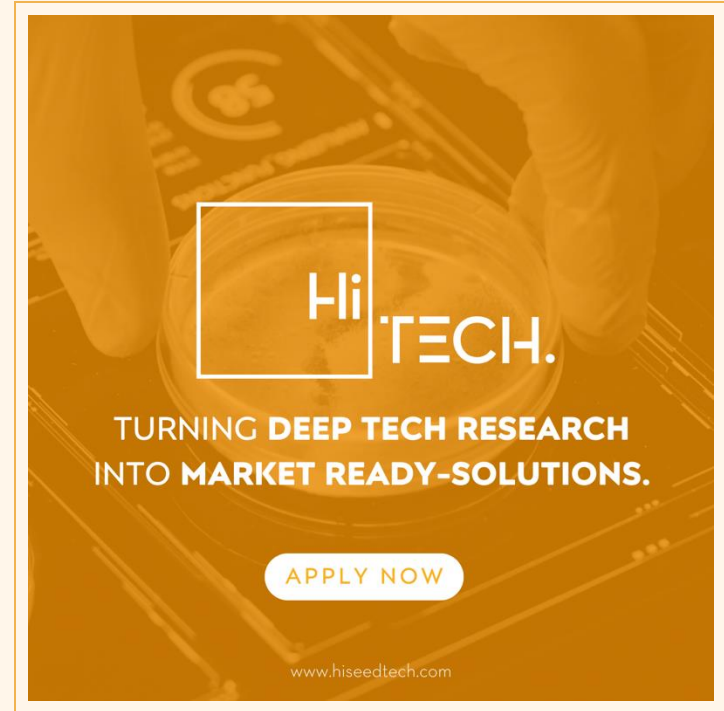

- **Market Pull Track:** Tackle real-world challenges posed by HiSeedTech member companies with your technology.
- **Technology Push Track:** Develop and bring your own deep tech project to market.

With training, workshops, mentorship from business experts, pitching opportunities, and a strong network, HiTech 2025 will guide you on your path from the lab to the market.

 Applications close January 31, 2025.

HISEEDTECH

About us

HiSeedTech is a not-for-profit association that aims to foster the creation of social and economic value from research and development activities performed in European organisations.

HiSeedTech was founded in 2017 by a group of 19 private companies and nowadays has 21 member companies from a wide range of business sectors.

HiSeedTech initiatives are grounded upon a collaborative network (made up of member companies, researchers and start-ups) that works as a platform to link researchers and companies.

HiSeedTech goal is to bridge the gap between science and the market.
